

UNIFIED SCHOOL DISTRICT 208
TREGO COUNTY, KANSAS

Superintendent's Annual Report
To The
Board of Education
2017-18

Compiled by the District Office
According to Policy

FORWARD

This is the fiftieth annual report of Unified School District #208, Trego County, Kansas. This report is presented to provide school board members, staff, and interested patrons information about the total school operation so that they may better understand the educational mission of the Trego County Schools. Further, these reports provide a somewhat limited history of the Unified School District #208 from its beginning in 1966.

USD MOTTO

Working Together, Educating All

TGS MOTTO

Together, **G**enerating **S**uccess!

TREGO GRADE SCHOOL MISSION STATEMENT

TGS, in partnership with parents and community, will provide a quality education in a positive environment where each student will have the opportunity to develop into a self-reliant, life-long learner.

TCHS MOTTO

Together
Reaching
Educational
Growth
Opportunities

TREGO COMMUNITY HIGH SCHOOL MISSION STATEMENT

TCHS is committed to developing capable and responsible life-long learners.

USD 208 District Mission & Vision

Mission Statement:

“The mission of USD 208 is to provide our students the opportunity to acquire the necessary skills to be college or career ready when they graduate by providing a rigorous K-12 academic program and/or the related training essential to begin a successful career.”

Vision:

We will accomplish this mission by providing a safe learning environment with a dedicated, collaborative, professional staff that deliver college and career ready curriculum. We envision a district in which staff

- ❖ Unites to achieve a common purpose and clear goals;
- ❖ Uses curriculum that is aligned with college and career readiness;
- ❖ Works and learns together in collaborative teams;
- ❖ Uses research-based instructions that are flexible, intentional, and engaging;
- ❖ Uses a system to evaluate and provide results showing student growth; and
- ❖ Promotes a climate and culture of efficacy in which all staff and leaders believe

all students can meet their learning goals.

We Believe: (Action statements)

❖ **Partnership with parents and community:**

Parents and community will encourage daily school attendance and participation in extracurricular activities. Parents and guardians will provide a safe place to do homework. The community will support classroom learning by providing educational incentives and work-related experiences that reinforce the district mission.

❖ **Assisting All students:**

The USD 208 educational team is committed to having all students meet or exceed district and state standards and completing goals set forth in their individual learning plans.

❖ **Being Respectful:**

Each student will be respectful toward himself/herself, fellow students, staff, and members of the community. Staff and students will show respect for diversity, demonstrate a sense of fair play, and respect the property rights of others.

❖ **Being Responsible:**

Students will demonstrate a positive work ethic with effective organizational and time-management skills and be able to see projects and activities through to completion as they reach their academic and extracurricular goals.

❖ **Being Productive Citizens:**

USD 208's education team will foster good citizenship and an awareness of the importance of community involvement. Students will demonstrate mastery of essential employment skills and develop independent problem solving and essential life skills.

❖ **Being Effective Communicators:**

All students will be able to communicate effectively by demonstrating competence in personal and group communication skills. We also commit ourselves to developing students' competence as ethical, responsible communicators as they utilize the various digital and cyber technologies.

❖ **Being Life-Long Learners:**

To promote student success in our world community, teachers will emphasize skills that will help each student adapt to change. Teachers will also foster a desire in students for life-long learning, which will include the acquisition of knowledge through information research.

*****A new book rotation schedule was adopted during the Fall 2014 semester and the long-range plan was updated. The long-range plan is currently being updated again as we are currently looking to upgrade science and elementary social studies.**

C.

TESTING PROGRAMS

Introduction

District group achievement tests are administered in compliance with Kansas State Department of Education regulations and USD 208 Board of Education policies (Policy II). The scores obtained from these tests are used in curriculum planning and to assess the educational needs of individual students.

Kansas State Assessment Report

The sophomores were given the Kansas State Assessment in Math and the Kansas State Assessment in Reading and the juniors were given the Kansas Assessment in Science. All tests were taken on the computer. All tests were coordinated through the Guidance Office.

National Merit Scholarship Qualifying Test

The NMSQT was administered to college bound juniors and sophomores in October. College-bound students with at least a B average are strongly encouraged to take this exam. We had 1 Sophomore and 4 Juniors take the exam.

D._____

TITLE I PROGRAMS

The Title 1 program provides opportunities for students in grades 1 through 8 to receive additional help in Reading and Math. Because we are a building-wide Title 1 school, Title 1 teachers and paraprofessionals are able to work with all students needing assistance. Some students receive 1-on-1 assistance outside the classroom while others are offered encouragement and assistance during the regular class period., Kindergarten – 5th grade take advantage of our *DIBBLES Program and MyLexia Program* that gives additional opportunities for students everyday by alternating practice in Math and Reading on a personal level. The program identifies their current grade level and measures growth throughout the year.

E. GRANTS

Title I Part A: Improving the Academic Achievement of Disadvantaged

This allocation of \$45,186.00 paid for the costs associated with the special reading and special math programs at the Trego Grade School.

Title II Part A: Teacher Quality

The new Title II Part A no longer emphasizes math and science professional development. Based on the results of our needs assessment, we may use the funds for professional development and hiring highly qualified teachers. This allocation of \$11,821.00 paid for PDC, School Improvement with NKESC, and administrative travel.

F. PROFESSIONAL DEVELOPMENT

District Sponsored Professional Development

August 21, 2017

Blood Borne Pathogens, Sexual Harassments, Suicide Prevention, First Aid and Confidentiality

August 22, 2017

KESA Training- Jon Stetler, SWPRSC

October 9, 2017

Make it your Own-Breakout Sessions at FHSU

January 15, 2018

Heartland Community Grant Opportunities, State Assessment Ethics Training

April 27, 2018

Go Math! for elementary; Career Cruising presented by Joni Clark-Leiker for TJH and TCHS

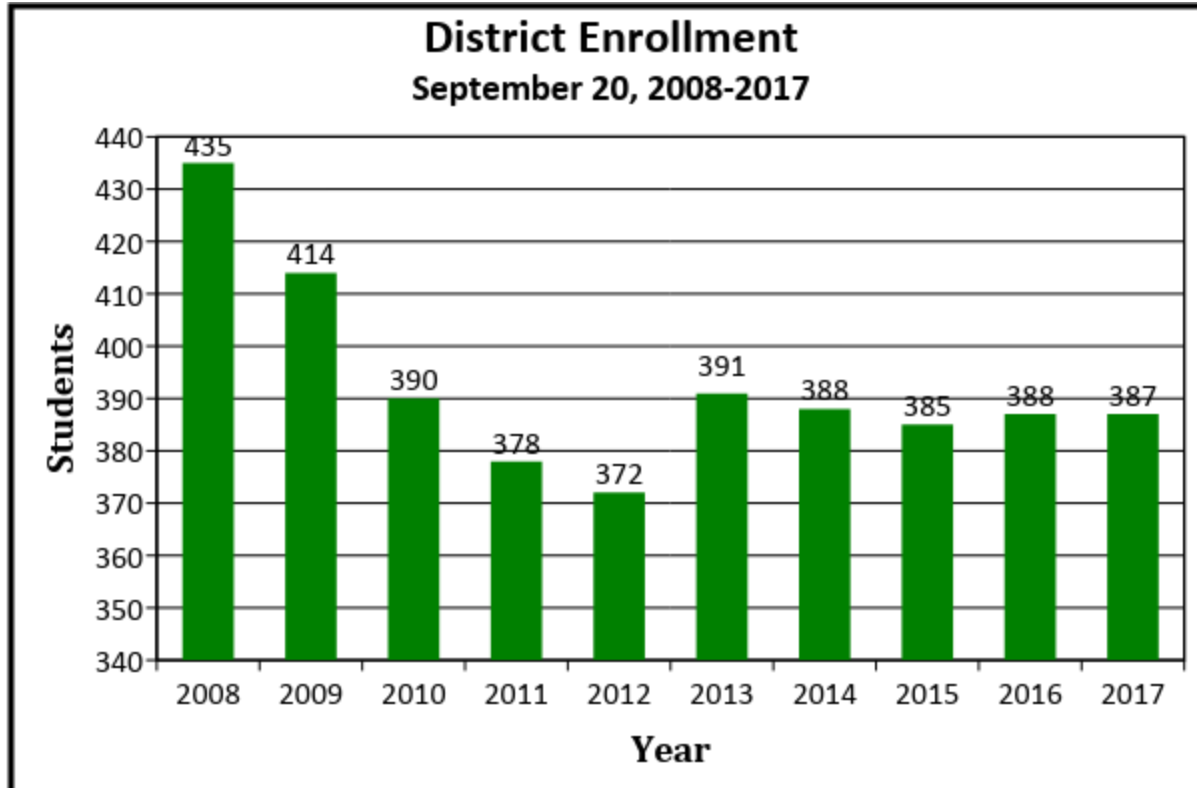

Professional Leave

Under terms of the Negotiated Agreement, the Professional Development Council (PDC) administers a professional leave fund. During the 2017-18 school year a total of \$12,500

was expended. Thirty-five individuals had active IDP's (Individual Development Plans) on file and may apply the inservice points toward their next recertification.

B. GUIDANCE DEPARTMENT

Trego Community High School

8th Grade Orientation – A freshman orientation meeting was held for both students and parents to ask questions. Both meetings included several coaches and sponsors presenting information about individual programs. Explanation of graduation requirements, course descriptions, and prerequisites, college-prep planning, NCAA requirements, Qualified Admissions, etc. were discussed with parents and students.

Pre-Enrollment – Pre-enrollment was conducted for all TCHS students including next year's freshman. The 8th graders visited the high school building and met with several teachers and the counselor to get an idea of how to start their high school program. Course planner was used in Career Cruising to pre-enroll all students. This was the first year without using the paper version and all went well.

School/Community Climate Activities – Special School/Community Climate activities conducted through the Guidance Office were Community Appreciation Day and Senior to Senior Day, both designed to help students be involved in the community and to give back to the community for all the support throughout the year. We got very favorable feedback about both of these programs and are encouraged to do both programs each year. Both teachers and students enjoy working with each other in a different environment.

Career Cruising – This was the second year for career cruising in the junior high and high school. Career Cruising is an all-inclusive web-based program that combines comprehensive career information with the personal perspective of individual students through the use of interest inventories, learning style inventories, and college/career goals. This year I visited 6th, 7th, and 8th grade students once in the fall and spring. Each meeting, we worked with the students to complete tasks previously assigned to them. In the high school, I met with 9th-12th grade every month or every other month to work on completion tasks assigned to each student.

ACT Method Test Prep – This year's English teachers, Mrs. Schoenthaler and Mrs. Brown began using ACT Method Test Prep to help students review ACT vocabulary and grammar. It will be interesting to see how the English ACT scores reflect this practice.

National Merit Scholarship Qualifying Test - National Merit Scholarship Qualifying Test - The NMSQT was administered to college bound juniors and sophomores in October. College-bound students with at least a B average are strongly encouraged to take this exam. We had 1 Sophomore and 4 Juniors take the exam.

Junior Information – We conducted an informational session for parents of juniors, soon to be seniors. The information was focused on all of the options and decisions

facing seniors. This meeting followed the 8th grade parent meeting.

Senior Information – Seniors were given information throughout the year in their English and Government classes regarding scholarships, application deadlines, college representatives visits, financial aid, and other senior concerns.

Financial Aid – In order to get high school seniors more aware and involved in understanding the financial aid process, I presented information to all seniors via the Senior Government classes. The financial aid process is well presented on Career Cruising. Since the FAFSA has been online as the preferred method, this process seemed to work well.

Awards Night – Awards Night was held on May 16th. Departmental achievement awards and academic achievement awards were presented. Scholarships and special senior awards were also awarded at this time. There was approximately \$35,000 awarded in local scholarships. Approximately \$259,000 in scholarships were awarded to our seniors (all sources).

Transcripts – Transcripts were finalized and copies sent to various universities, colleges, and vo-tech schools, etc. as requested by senior students and/or parents.

CounselorTransition – This was the first year for a PreK-12 school counselor. Guidance Lessons were given to PreK-2 beginning in September every week through Spring Break. Small group and individual counseling was provided to students as needed.

Student Improvement Team – This year, I took over chair for the Student Improvement Team. Students are referred to the student improvement team by teachers and/or parents when the student is presenting an academic or behavior concern. The team meets to discuss interventions to assist the student. It is a required step before students are referred for special services. We had four students referred to SIT this year. Next year, we are looking at scheduling a set time for meetings.

Kansas Communities that Care Survey – The KCTC was given to 6th, 8th, 10th and 12th grade students with parent permission. The purpose of this survey is to learn how students in our schools feel about their school, friends, community, and family. This survey tracks teen use of harmful substances such as alcohol, tobacco, and other drugs. In addition, the survey provides a baseline for teen participation in, perception of, and attitudes toward both prosocial and antisocial behavior at the peer, school, family, and community levels. It provides a measurable level of risk and protective factors that influence behavior, attitudes, and opinions of Kansas teens.

Trego Grade School

8th Grade Orientation-Accompany 8th graders on their orientation tour of TCHS and assisted TCHS guidance counselor in having 8th graders complete pre enrollment schedules for the upcoming 9th grade year. Assist TCHS counselor in Career Cruising online enrollment follow up activity at TJH for 8th graders.

8th Grade Transition Meetings- Meet with Jr. High resource room teacher, high school resource room teacher, High school counselor, 8th grade students on IEPs and their parents to discuss and plan for transition into high school.

Counseling Sessions/Individual Student Support-Provide support to individual students on both an as need and ongoing basis. The support sessions target a variety of needs such as: academic, social skills/ peer relationships, managing emotions/self regulation, and family concerns.

Schoolwide Character Development Activities- Help plan, organize and implement school-wide activities that put character skills into action. This has included activities such as the school-wide clean up day. An activity that continues to be in progress based on the school-wide clean up day is the development of an outdoor classroom area at TGS. This is being done in conjunction with the STEM teacher.

Character Education Lessons-Conduct weekly classroom lessons in grades kindergarten through second grade. Conduct lessons as requested for additional grade levels.

AIMSweb Assessment- Coordinate AIMSweb testing for kindergarten, first and second graders. Responsibilities include: entering student data and appropriate demographic markers into the web based system, establishing class groupings and teacher access, downloading and distributing benchmark probes (Fall, Winter, Spring). Assisting teachers with data entry issues, interpretation of results, and understanding of test administration guidelines and norms. Assist with the progress monitor process for at-risk students. Download, print and archive the classroom benchmark results for Fall, Winter and Spring.

TJH Career Cruising- Introduce 6th, 7th and 8th grade students to the Career Cruising program by completing the Matchmaker Inventory, Learning Styles Inventory and completing career exploration activities.

Student Improvement Team-Chair the TGS/TJH (Kdg-8th) Student Improvement Team (SIT). This involves taking teacher and parent referrals, contacting/interviewing parents, scheduling team meetings, chairing meetings and assisting in brainstorming interventions. The SIT team meet on an as need basis, with multi meetings some weeks and no meetings on other weeks. The purpose of the SIT meeting is to assist classroom teachers in targeting areas of need and developing interventions for students' areas of need. This process is a federally mandated step referred to as general education intervention (GEI).

Additional Committee/Team Involvement-Team member for special education meetings including: referrals, evaluation meetings, and annual updates. 504 team member; assist in

gathering data from records, teacher, parents and specialists in order to determine 504 eligibility and to assist in developing 504 plans.

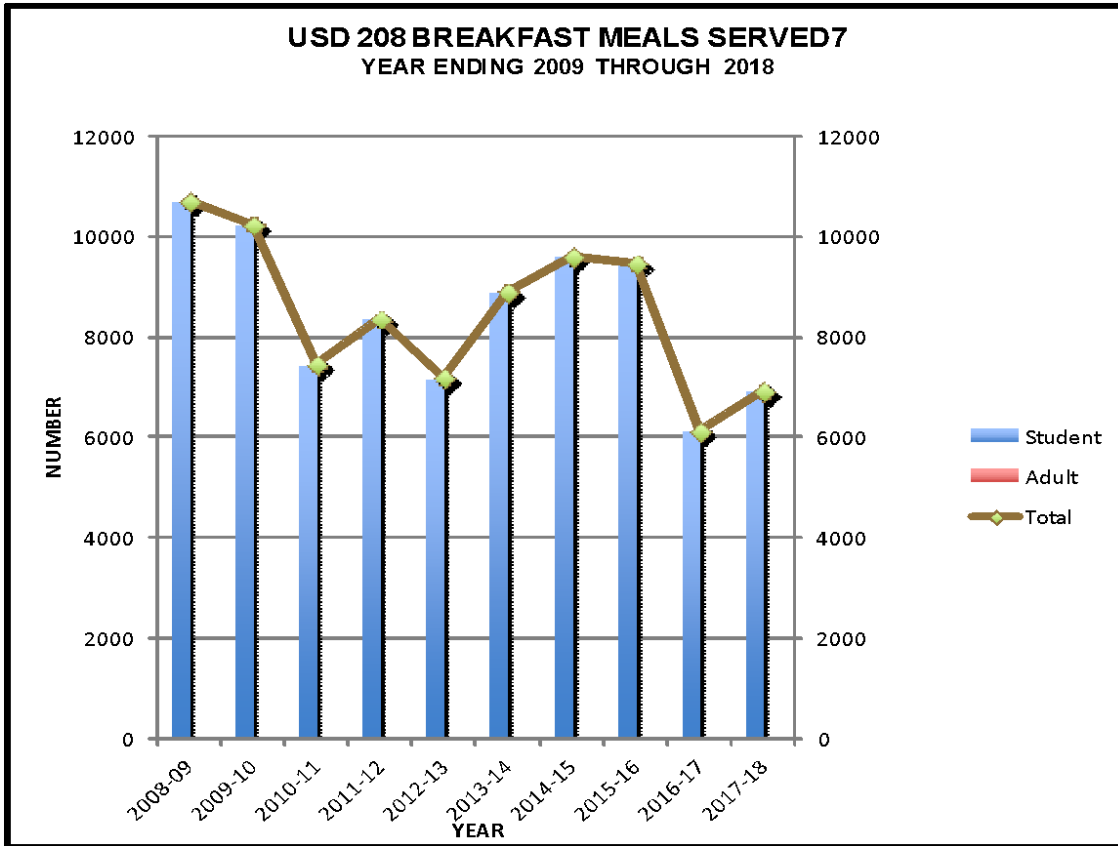

Individual Development Training-Complete NKESC MIS training and any additional trainings deemed appropriate, attend local/district in-services.

Participants: 93

This is a summer lifting and conditioning program for students' grades 6-12. This program runs 3 days a week, Monday, Wednesday, and Friday. It also runs in the winter, for students 9-12 before school. It is designed to physically and mentally challenge the participants to get faster, stronger and more explosive.
